**Timelines from Approval to Generic Competition**
(example with HIV medicines)

- **Lopinavir/ritonavir**: 8 years 5 months
- **Tenofovir disoproxil fumarate**: 7 years 6 months
- **Dolutegravir**
  - TDF/3TC/DTG*: ca. 4 years**
  - TAF/FTC/DTG*: 

Achieved through the Medicines Patent Pool model

* From originator approval to at least two generics available on the market.*

* TDF/3TC/DTG and TAF/FTC/DTG: new fixed dose combinations being developed for use in low and middle-income countries.
  ** Estimates based on current information (2018).
