Wednesday July 8th, 2020

8AM San Francisco (PDT)

5PM Geneva (CEST)

8:30PM New Delhi (UTC+5:30)

Thursday July 9th, 2020

2AM San Francisco (PDT)

11AM Geneva (CEST)

2:30PM New Delhi (UTC+5:30)

Pre-recorded talks available on demand from July 4th to July 10th on the conference website.

Adherence to prevention and treatment therapeutics, as well as uptake and retention in care are critical challenges to sustained control of the HIV epidemic. Long-acting (LA) formulations designed to support long-term adherence and simplify treatment and prevention of HIV hold the promise of less burdensome therapeutic options, individual empowerment and wellbeing enhancement. Ensuring timely access to such game-changing innovations in low- and middle-income

countries (LMICs) is key to minimise global health inequities. This satellite will provide an overview of LA products development and discuss opportunities and challenges for introduction of affordable LA solutions in HIV programmes in LMICs. The panel includes community representatives, industry and researchers focused on innovation in delivery methods, international implementing agencies, intergovernmental organisations and funders.

Co-chairs

Carmen Pérez Casas
Senior Strategy Manager
Unitaid

Charles Gore
Executive Director
Medicines Patent Pool

Rachel Baggaley
Coordinator, Global HIV,
Hepatitis and STIs programmes
World Health Organisation

Invited speakers

Imelda Mahaka
Country Director
Pangaea Zimbabwe AIDS
Trust (PZAT)

Beatriz Grinsztejn
Director of the STD/
AIDS Clinical Research
Laboratory
Fundação Oswaldo Cruz
AIDS 2020 Virtual IAS SPC
Co-Chair

Helen McDowell
Head of Government
Affairs & Global Public
Health
ViiV Healthcare

Shelly Malhotra
Senior Director of Global
Access
IAVI

AGENDA

Setting the scene: opportunities & challenges in long-acting landscape
Carmen Pérez Casas

Needs and potential for long-acting technologies

Community preferences, major concerns and ideal characteristics of long-acting products
Imelda Mahaka

Discussion on health care provider perspective and health systems implications
Beatriz Grinsztejn

Access: How do we go about it? Case Studies

Long-acting cabotegravir: Leading the way in long-acting HIV prevention therapy
Helen McDowell

Ensuring access to monoclonal antibodies
Shelly Malhotra

Moderated discussion *Facilitated by Rachel Baggaley*

Concluding remarks *Charles Gore*
