

Thursday
25 July
11:00–12:00

MPP/Unitaid booth #904 in the exhibition area

NAVIGATING LONG-ACTING THERAPEUTICS: LAPaL, a database at the Intersection of Innovation and Access

LAPaL is the only online open access tool dedicated to supporting access to long-acting therapeutics. It not only provides patent and licensing information about key long-acting technologies and compounds, but also captures clinical development, regulatory filing information of selected treatment and prevention medicines. LAPaL aim is to provide reliable information and support innovation in the long-acting therapeutics while fostering access. Join this hands-on session to discover it!

If possible, come with your computer/tablet to get the full experience!
